

**El Dorado Hills, CA December 7, 2016 - ViSTA Networking Solutions and NCE Computer Group Partner for NVR Service and Support**

ViSTA Networking Solutions (VNS) is please to announce a technology partnership with NCE Group to provide on-site service and repair for our modular Network Video Recorder (NVR) products. NCE is a leading third-party maintenance provider offering post-warranty data center maintenance services to clients nationwide.

“All of our V1000, V2000 and V3000 Surveillance Video Information (SurVIS™) NVRs will now include one year of Next Business Day support via NCE”, said Graham Joys President of Vista Networking Solutions. “Customers will have the options to extend their maintenance contract up to another 4 years and/or upgrade to a 24x7x4 service level”. Additionally, customers will be able to attain service agreements for all VNS custom and specialty NVRs as part of the partnership. “We are excited about the future partnership between NCE and VNS — which will combine modern surveillance solutions with NCE’s experienced engineering and technical support to provide our customers with effective and reliable maintenance and service for our SurVIS NVR platforms.”

“NCE is dedicated to supporting VNS with industry-leading technical support and expertise,” said Todd Rasmussen, Director of Sales and Marketing. “We look forward to building a long-term partnership providing on-site services for VNS’s video surveillance solutions.”

**About ViSTA Networking Solutions**

IP Video Architects addressing the unique requirements of next generation surveillance systems by applying leading edge computer and networking technologies to produce advanced video surveillance products. From Embedded to Enterprise, VNS has a solution to meet any surveillance need. More information can be found on the company's website: [www.vnssystems.com](http://www.vnssystems.com)
